Sport Fishery Abstracts

An abstracting service for fishery research and management

INDEX
TO
VOLUMES 6 - 10

Abstracts 3814 - 8300

Included are author and subject indexes to Volumes 6 through 10 of Sport Fishery Abstracts.

The subject index form which was begun in the previous 5-year Index is used here with minor changes. Approximately 50 principal subject headings are used, not including scientific and common names. American Fisheries Society Special Publication No. 2, "A List of Common and Scientific Names of Fishes from the United States and Canada," is used when possible. The names of fishes not included in that publication are those used in the paper abstracted.
